MESSAGE FROM THE SUPERINTENDENT

The golf course is coming along pretty well. Cooler than normal weather has helped course conditions, but the increased popularity of golf has been a challenge. We are repairing more ball-marks and divots than normal. We ask that you fix yours plus one more please. Fairways are handling the extra wear (90 degrees when possible!) However, tee boxes are now in need of an upgrade. We've started rebuilding - You may have seen sod being laid down. We strip the existing sod, re-level with a tractor box blade, add sand for a precise grade, and finally, we install Banderas variety of hybrid Bermuda sod. Once the process is complete, the boxes will open for use in two weeks. This work will continue through September. We hope you will enjoy these improvements. As always, thank you for your continued support.
